ACCEPTABLE USE AGREEMENT**

Persons wishing to use the Morgan Hill Unified School District's computer system are required to read this *Acceptable Use Agreement* and agree to abide by its terms by signing the Agreement. Signed Agreements must be completed and returned to the applicable school site or work site at the beginning of each school year and/or when the user first starts using the computer system.

INTRODUCTION

The Morgan Hill Unified School District provides technology resources to its students and staff in furtherance of its educational and business purposes. It is the District's goal to promote educational excellence in the District's schools by providing technological resources, facilitating innovation, and improving communications with the support and supervision of parents, teachers, and staff. The use of these technology resources is a privilege, not a right.

Access to computers and people all over the world through the District's Computer System entails potential access to material that may not be considered to be of educational value in the context of a school setting. The District believes that the value of the information, interaction, and research capabilities available through computer technology outweighs the possibility that users may obtain material that is not consistent with the educational goals of the District.

Proper behavior, as it relates to the use of computers, is no different than proper behavior in all other aspects of School District activities. All users are expected to use the District's Computer System in a responsible, ethical, and polite manner. Parents are strongly encouraged to be involved in their children's computer use and to guide them in ethical and proper use. This document is intended to clarify the terms and conditions of access to the Computer System and expectations as to its proper use.

(cf. 5131 - Conduct)

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

4. Unless otherwise instructed by school personnel, students shall not disclose, use, or disseminate personal identification information about themselves or others when using email, chat rooms, or other forms of direct electronic communication. Students also shall be cautioned not to disclose such information by other means to individuals contacted through the Internet without the permission of their parents/guardians.

Personal information includes the student's name, address, telephone number, Social Security number, or other personally identifiable information.

7. Students shall not use the system to threaten, intimidate, harass, or ridicule other students or staff.
8. Copyrighted material shall be posted online only in accordance with applicable copyright laws. Any materials utilized for research projects should be given proper credit as with any other printed source of information.

(cf. 5131.9 - Academic Honesty)

9. Students shall not intentionally upload, download, or create computer viruses and/or maliciously attempt to harm or destroy district equipment or materials or manipulate the data of any other user, including so-called "hacking."

11. Students shall report any security problem or misuse of the services to the teacher or principal.

The district reserves the right to monitor use of the district's systems for improper use without advance notice or consent. Students shall be informed that computer files and electronic communications, including email, are not private and may be accessed by the district for the purpose of ensuring proper use.

Whenever a student is found to have violated Board policy, administrative regulation, or the district's *Acceptable Use Agreement*, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.
