

**Britton Middle School
Math Resource Room
Mrs. Navarro**

March 16, 2020

Dear Students, I am so sorry not to be able to greet you all in person. It is best to be safe than sorry; I hope you are all well at home. As you know, my philosophy regarding learning is **“It is your right and responsibility to educate yourself, through discipline, studying, and knowledge from your teachers.”** This is the perfect situation to challenge yourself to do the work because it helps you increase your knowledge, not because it is due. I am sending you a Class Syllabus, course outline for the next 4 weeks. You will find the list of assignments with dates to guide your pace. Here are some things I would like you to do so that we can get started,

1. Download the **Remind** app. So we can communicate over the computer.
2. Download the Zoom app on your computer and/or smartphone. I will be teaching you from my kitchen, garden or meditation room. Don't miss it!!!. It will be live and I don't know how to record it for you for later. You will be able to ask me questions just like in class.
3. Office Hours: I am also going to set up office hours
4. My email: navarrot@mhusd.org
5. Put your workbooks in a safe place so that you can work on it everyday at the same time.
6. Log onto your Math 180 online program, using your student ID at home through Clever or from the Britton website. 20 minutes daily will really boost your skills!

You have all done great work so far this year and I'm proud of your accomplishments. Keep up your dedication,

Sincerely, Mrs. Navarro

Math180/Key Math, 5th Period Mrs. Navarro

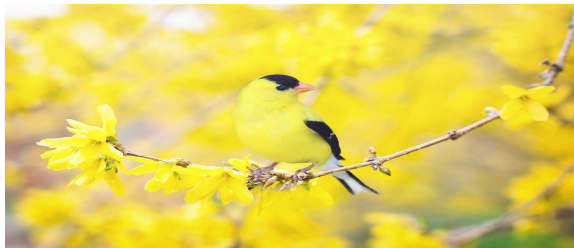

4 Week Syllabus

Date 3/23/20- 3/27/20

Suggested date Schedule	Page Number KEY Math Book	Math Goal	Live- teaching (Zoom) or Youtube video
